Subject: RE: Responses to EPA and MDNR Comments on the Work Plan for Additional Characterization of Areas 1 and 2

This causes me great concern. I do not believe the state should be directing the PRPs contractor on an EPA-lead NPL site. The state should be providing comments to EPA and then we direct the PRP. I will be unable to participate in the weekly update today and any subsequent meetings, so please keep me updated on the team's recommended approach to resolving this issue and getting the work plan approved. Thanks.

Mary P. Peterson, Director

All, here is the state's letter following our call yesterday with Branden. We can discuss at today's update and plan to have a follow up call after with EMSI to resolve these remaining

items.

Paul:

Please find attached our letter related to the responses to department comments on the Work Plan for Additional Characterization in Areas 1 and 2. Please let me know if you have any questions.

Thank you,
Branden

Subject: Responses to EPA and MDNR Comments on the Work Plan for Additional Characterization of Areas 1 and 2

Attached please find responses to the July 31, 2015 EPA and MDNR comments on the July 6, 2015 Work Plan for Additional Characterization of Areas 1 and 2. Also attached are revised figures of the proposed boring locations showing the contingent sediment sampling locations.

Please contact us if you have any questions.

Thank-you and have a great weekend, Paul
